NAME

SO FUNKTIONIERT ES

Du siehst zwei Würfel. Zähle die Augen von beiden zusammen und schreibe das Ergebnis in das Kästchen.

1

A diagram illustrating the addition of two sets. On the left, there are two identical rounded rectangular boxes, each containing three black dots arranged in a triangular pattern. These two boxes are separated by a plus sign (+). To the right of the plus sign is an equals sign (=), followed by a dashed rectangular box, representing the result of the addition.

2

A visual equation showing a box with 6 dots plus a box with 1 dot equals a dashed box.

3

A diagram illustrating the addition of two sets. On the left, a rounded rectangle contains three black dots. This is followed by a plus sign, then another rounded rectangle containing one black dot. This is followed by an equals sign, and finally a dashed rounded rectangle, which is empty.

4

A visual equation showing a square with 1 dot plus a square with 5 dots equals a dashed square.

5

A visual equation showing a rounded square containing 6 dots plus a rounded square containing 1 dot equals a dashed rounded square.

6

A visual equation showing two squares, each containing 5 dots, followed by a plus sign, an equals sign, and a dashed square.

7

A visual addition problem. On the left, a rounded square box contains 6 black dots arranged in two columns of three. To its right is a plus sign. Next is another rounded square box containing 4 black dots arranged in a diamond pattern (top, bottom, left, right). To its right is an equals sign. Finally, on the far right, is a dashed rounded square box, intended for the student to draw the sum.

8

The diagram illustrates the addition of two identical sets. On the left, there are two identical rounded rectangular boxes. Each box contains two black dots: one in the top-left corner and one in the bottom-right corner. These two boxes are separated by a plus sign (+). To the right of the plus sign is an equals sign (=). To the right of the equals sign is a dashed rounded rectangular box, which is empty, representing the result of the addition.

9

A visual equation showing two boxes, each containing 6 dots, followed by a plus sign, an equals sign, and a dashed box.

10

A visual equation showing two identical boxes, each containing two black dots, followed by a plus sign, an equals sign, and a dashed box.

11

A visual equation showing a box with 1 dot plus a box with 6 dots equals a dashed box.
